To whom may concern,

It gives me great pleasure to recommend Mohammed Ibrahim Shalabi who worked at YouPositive with the website development for one year. During the time that Shalabi was working at YouPositive he was helping and in charge of designing, coding and modifying websites, from layout to function and according to a client's specifications. He played a big role in the development team while they were structuring and putting down new Business Requirement Document "BRD" with web design to build a new website from scratch.

He have a strong understanding of UI, cross-browser compatibility, general web functions and standards. Shalabi is strong in communication skills and he gives attention to detail.

He was very proactive dealing with problems and very effective at anticipating potential issues before they surface. He has a strong desire for continual learning and for accepting new and challenging projects.

I always liked Shalabi's easy and confident communication style and his ability to deal positivity with personal and skill area that required further development.

It is with high confidence that I recommend Shalabi for any position that he feels matches his career objectives and skills. Your organization will benefit from his valuable contribution.

If you have any future question, please do not hesitate to contact me. I will be more than happy to discuss Shalabi's suitability to your company.

Sincerely,  
Zahra Alomhanna
